Seminar On The Clinical Key For Electrical Stimulation In Physiotherapy And Rehabilitation

Dear Reader,

Burdur Mehmet Akif Ersoy University is one of CK4Stim Project's partner. They conducted a seminar to disseminate the project. The seminar was held at Burdur State Hospital on July 4, 2024, and at Burdur Sevgi Çiçekleri and Mübeccel Sayılı Special Education and Rehabilitation Centers on July 8, 2024. A total of 40 physiotherapists from these and other related institutions attended the seminars. Mugs featuring the emblems and logos of the Turkish National Agency, the European Union Erasmus+ Program, and the CK4Stim Project were given to the participants as part of the project's introduction. Additionally, an introductory brochure was distributed to further disseminate information about the project.

The seminar presentation, sharing the same title as the project, was delivered by project researcher PT MSc. Lecturer Betül Söylemez from Burdur Mehmet Akif Ersoy University. During the seminar, information was provided about the CK4Stim Project's goals, the project team, transnational meetings, results from the pilot course, and the final outputs of the project. Following the seminar, a workshop was held for the participants, which included a demonstration of the project's webpage. In this workshop, the practical use of online training materials available to physiotherapists was explained.

A project introduction roll-up display was also featured during the seminar. After the completion of the seminar, PT MSc. Lecturer Betül Söylemez presented gifts to the participants. The event concluded
